THE PORTO RICAN BILL

Senator Lodge's Move. ment.

THE ATTITUDE OF THE PARTY.

Great Britain and American Investors.

SENATOR ELKINS DOES NOT WANT IT.

From Our Regular Correspondent.) WASHINGTON, March 12, 1900.

Rapublican Senators are showing a disposition to get together on the Porto Riean bill. While it cannot yet be stated to a certainty what changes will the free entry of all American goods in

Porto Rico. . The action of the Senate Committee on foreign relations in amending the Nicaragua Canal treaty so as to reserve to the U. S. authority to defend the Canal in any way it may see fit seems to meet with general approval. There is no reason to suppose that the amend-ment will be objected to by England. In fact, it cannot very well be objected to since the amendment is in almost the exact language of a clause in the treaty under which the Suez Canal was

A SENSIBLE MOVE.

In view of its effect upon our reve nue, referring the reciprocity treaty with France to the Senate Finance Committee for consideration and report before voting upon it, seems a sensible move. There is much guessing going on as to when the treaty will be voted upon, but these who ought to know, believe that it will be acted upon at the present session.

Representative Hepburn, of Iowa, has introduced a short bill that would,

if enacted into a law, put an end to prize fighting in this country. It pro-vides that no picture or description of any prize fight or pugilistic encounter, or any proposal for betting on a fight, hall be transmitted through the mail or by any common carrier engaged in interstate commerce, whether in a newspaper or periodical, or in any othreason for its existence.

FOR THE RELIEF OF GEN. MILES.

Senator Lodge thinks the officer commanding our army should have a high er rank than any other officer, and has introduced a joint resolution giving to the senior Major General, while commanding the army, the rank, pay and emoluments of Lieut. General. Representative Moody, of Mass., offered the resolution in the House.

Representative Brosius, of Pa., who

has earned a reputation for level-headedness, voiced the opinions of many republicans when he said: "There is a difference between a philosopher and a statesman. A statesman must keep his feet on the ground while a philosopher may be permitted to do more or less theorizing. Therefore I regret this tendency to yell out against the republican party at this time, particularly on the part of some very prominent republicans. I firmly believe that the republican party is able to meet successfully any problem that codfronts it, and we ought to be willing te wait with patience for the solu-tion of the great problems attending the possession of our new islands."

PREDICTS REPUBLICAN SUCCESS.

Col. George Bohon, of Ky.. who is credited with knowing the politics of his state, said to a group of friends, in a Washington hotel: "Unless Goebel law is repealed, Kentucky go republican as sure as candidates for the office of President are nominated, and the state will go republican so hard that it will never get back into

An object lesson on the credit of naions was furnished by the action of the British Government in offering English Consols, bearing 23/2% interest, to American investors—the time such an offer was made-at 9834% of their face value, and by the finance bill, devised by republicans, which will this week become a law. This bill provides for refunding the entire bend-ed indebtedness of the United States into 2% boncs, lower than any nation has ever floated bonds and assurances have already been received that the new bonds will be gladly taken at par by the helders of the old ones. That is the sort of statesmanship the republicans give this nation. They were licans give this nation. They were not satisfied that our credit should be as good as that of any other nation, but have made it better than that of

AGAINST AMERICAN MEAT.

The passage by the German Reich-stag of the bill aimed at American neat products has not produced a pleasant feeling in Washington, but either in Congress nor in administration circles is there any disposition to publicly criticise the matter in its present stage. It is easy to infer, however, from what is said by those who are in position to make good their words. that if Germany deliberately invites a mmercial conflict with us, she will made to deeply regret having done

Senator Elkins has put a stop to the fix of his being a candidate for Vice resident by saying that he doesn't wish the office and that he does wish

to remain in the Senate. He also expresses the opinion that President Mc Kinley should be allowed to choose the candidate for Vice President.

Representative Ray is to be chairman of the special committee of seven, authorized by Representative Overstreet's resolution to consider bills

street's resolution to consider bills and resolutions relating to trusts. The Senate declined to accept Sena-tor Hoar's proposal to pension the ex-Queen of Hawaii.

NOVELTIES IN NEWS EDITING.

The First Item Is a Prayer by Bishop Vincent, While Articles on India's Famine, Militarism and Prohibition Lead the News Columns.

Topeka, March 13 .- "The main purpose of this paper will be to influence its readers to seek first the kingdom of God."

The Rev. Charles M. Sheldon, who yesterday assumed editorial and busi-ness control of The Daily Capital, which he will retain for one week, makes this announcement in his editorial leader outlining his policy this morning. The Capital during this time will be a "newspaper," the word "news" being defined by Mr. Sheldon as anything in the way of current events that the public ought to know for its moral and spiritual development. The paper will be absolutely non-partisan, and partisan political news will be given scant notice.

All editorial and important local matter will be signed by the writers. There will be no Sunday paper, but instead a Saturday evening paper suitable for Sunday reading.
"May God bless the use of this pa-

per to the glory of his kingdom on

REV. CHARLES M. SHELDON. earth," says Rev. Mr. Sheldon in con-

cluding his leader.

The first item on the first page today is a prayer written by Bishop John A. Vincent, of the Methodist Episcopal

Editor Sheldon went to the office at 8:30 o'clock yesterday morning and was on duty until the paper went to press at 3 o'clock this morning. At 11 o'clock yesterday forenoon he met the local force of the paper and gave

out the assignments for the day.

A page is devoted to local news, and the leading features for today are reports of a temperance revival and an anti-cigarette meeting. Mr. Sheldon instructed the pouce reporter that in case of a murder or other crime to write a bare statement of the facts. The sporting editor was given space for a bowling contest at the Y. M. C. A., but the dramatic editor was excused from duty.

One page is reserved for telegraph news, which ordinarily occupied about three times the space. The war news is the feature of the page, Mr. Sheldon considering the prospects of peace the best possible news.

A five hundred word story on the religious outlook in Kansas City. scheduled by a Kansas City correspondent, was promptly accepted by telegraph.

The market reports are cut from four columns to one. All quotations on stocks and bonds, giving options and other matter involving the transactions in futures were consigned to the waste basket, and only the actual cash prices of grain, produce, etc., are quoted

A notable feature of the paper is the method of handling advertisements. They are banished from the news and editorial pages and bunched in places reserved for them. The censorship here is even more rigorous than in the news columns, and a large quantity of this class of matter has already been cut out, including all relating to patent medicines. The familiar corset adent medicines.

The first page, usually occupied by telegraphic news, is devoted principally to articles on the famine in India, anti-militarism and Kansas' prohib-

I had no luck in anything I undertook, What to do I did not know. A riend advised me to go and see pr. Shea. I did. He told me the cause of my troubles he took me in and treated me as a brother. Through him I got a good position that very week. I had been to others: they took my money and did me no good. I bless the day I first met Dr. Shea, I would advise all in bad luck, sick or in trouble to go to him at once, Sincerely.

Hearing of the wonderful things Dr. Shea was doing, I resolved to consult him. He told me my husband was alive and well and where he was; told me he would come home and when. To my joy all of it came true. He is home now, come back like one from the dead. I also wish to say that this month I lost the sum of \$250. I am a poor woman and I was most insane I went to Dr. Shea and he told me I would find my money and to my intense joy I did find it as he told me. She had several doctors, but none of them seemed to know what was the matter. None could do her any good. It was my duty as her pastor to call and see her. Hearing of the wonderful work being done by Dr. Shea the last few years, I thought I would call and see him myself. I found him a kind sympathetic gentleman. He gave me a wonderful test of his powers; told me to send him a lock of patient's hair, which I did by her daughter.

He told atonce what was the matter and in a short time cured her sound and well. Her family had seemingly been under a cloud. Now all is changed. All are well and prosperous.
